

**ERRATUM**

To the article “Mathematical Modeling of the Productivity of Spinning Pumps Used to Form Aramid Fibers,” by D. V. Min’kov, Vol. 44, No. 6, pp. 393-398, March, 2013.

Eq. (2) on page 394 should read

$$Q_a = Q_i - Q_1, \quad (2)$$

$$Q_a = \Delta P_{pr} / [\mu(X_1^H + X_2^H)] \quad (3)$$
