The original version of this article unfortunately contained a mistake in “Equation 1b” under Sect. 4.1. The correct equation is given below:

$$\sigma = f_{y,T} + (k_3 - k_4 f_{y,20}) \exp \left[- \left(\frac{T}{k_2} \right)^{k_1} \right] \left(\varepsilon - \frac{f_{y,T}}{E_T} \right)^n \quad \left(\varepsilon > \frac{f_{y,T}}{E_T} \right) \quad (1b)$$

* Correspondence should be addressed to: Guo-Qiang Li, E-mail: gqli@tongji.edu.cn
