Correction to:

Hydrobiologia

<https://doi.org/10.1007/s10750-020-04420-w>

After publication of the above mentioned article, previously undisclosed material was made available resulting in an altered population status for the below mentioned fish species:

Acanthurus coeruleus, *Conus arenatus arenatus*, *Trivirostra triticum*—Single record; *Crenidens crenidens*, *Fistularia petimba*, *Notocochlis gualteriana*, *Pomacanthus imperator*, *Sardinella gibbosa*, *Spratelloides delicatulus*,—Rare; *Diala semistriata*,

Isognomon legumen, *Melithaea erythraea*, *Mimachlamys sanguinea*—Local; *Decapterus russelli*, *Hemiramphus far*, *Pomadasys stridens*, *Torquigener flavimaculosus*—Common; *Nemipterus randalli*, *Ostorhinchus fasciatus*—Abundant.

The changes to this species list do not alter the scientific meaning of the original publication, but it does result in an update of the original supplementary material S1, which is published here.

Publisher's Note Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.

Supplementary Information The online version contains supplementary material available at <https://doi.org/10.1007/s10750-020-04502-9>.

The original article can be found online at <https://doi.org/10.1007/s10750-020-04420-w>.
