In the original publication the initial sentences of the legends for Figs. 4 and 5 were inadvertently reversed. They should read as follows:

Figure 4. Effect of a 1.8 mg load of colchicine on extent of monocyte- and neutrophil-platelet aggregate.

Extent of monocyte-platelet aggregate (Panel A) and neutrophil-platelet aggregate (Panel B) were assessed before and 2 and 24 h after completion of the 1.8 mg load of colchicine in

healthy subjects ($n=10$). Medians shown *via* dashed line.

Figure 5. Effect of a 1.8 mg load of colchicine on platelet surface expression of PAC-1 and P-selectin.

Platelet surface expression of PAC-1 in response to 0.4 μ M epinephrine (Panel A) and P-selectin in response to 0.025 U thrombin (Panel B) were assessed before and 2 and 24 h after completion of the 1.8 mg load of colchicine in healthy subjects ($n=10$). Medians shown *via* dashed line.
