The article “Observation of Anomalously Strong Penetration of Terahertz Electric Field Through Terahertz-Opaque Gold Films Into a GaAs/AlGaAs QuantumWell”, written by S. D. Ganichev, S. N. Danilov, M. Kronseder, D. Schuh, I. Gronwald¹, D. Bougeard, E. L. Ivchenko, and A. Ya. Shul'man, was originally published Online First without Open Access. After publication, the author decided to opt for Open Choice and to make the article an Open Access publication. Therefore, the copyright of the article has been changed to © The Author(s) 2021 and the article is forthwith distributed under the terms of the Creative Commons Attribution 4.0 International License (<http://creativecommons.org/licenses/by/4.0/>), which permits use, duplication, adaptation, distribution, and reproduction in any medium or format, as long as you give appropriate credit to the original author(s) and the source, provide a link to the Creative Commons license, and indicate if changes were made.

The original article has been corrected.

The original article can be found online at <https://doi.org/10.1007/s10762-020-00717-y>.
