In the original version of our methods, we incorrectly stated the size of the Japanese macaques' exhibit at Lincoln Park Zoo. We reported that the indoor/outdoor exhibit was ca. 224,700 m². In actual fact, the macaques' outdoor exhibit is ca. 685 m² (2247 ft²) and their indoor exhibit space is ca. 348 m² (1141 ft²).

The online version of the original article can be found at <https://doi.org/10.1007/s10764-020-00131-0>
