**Erratum to: Inflammopharmacol (2010) 18:303–308**  
**DOI 10.1007/s10787-010-0057-1**

After publication of this work an overlap in the values of increase in joint diameter on day 3 in different groups and panel a of Fig. 3 with those in our previous paper (Wahane and Kumar 2010) was brought to our attention. These studies were part of the same project and this error resulted due to an oversight. Day 3 values for increase in joint diameter for the original article are—FC:  $4.24 \pm 0.13$  mm; D5:  $3.10 \pm 0.09$  mm; A10:  $3.48 \pm 0.12$  mm; A50:  $2.87 \pm 0.11$  mm (27, 18 and 32 % inhibition, respectively). Panel a of Fig. 3 was used for reference purpose in these papers.

This correction does not affect the conclusion of the study.

The authors apologize for this error and any inconvenience caused.
