Correction to: Inflammopharmacology
<https://doi.org/10.1007/s10787-021-00881-0>

There was a writing typo in Table 3. In fact, 38 of the 123 patients admitted to the ICU have died (30.89%). This mortality rate was from 123 patients admitted to ICU.

Correction of the text in the section “Results” in line 16–17: There was a significant difference in mortality rates between the groups, 38 (30.89) deaths were observed in the control group.

Corrected Table 3:

Table 3 Duration of hospitalization, the necessity of intensive care unit, and mortality of the study groups after intervention

| | Control group | Case group | <i>P</i> * |
|--------------------------------------|---------------|------------|------------|
| Duration of hospitalization | 14.3 ± 5.3 | 10.5 ± 4.8 | 0.015 |
| Necessity of intensive care unit (%) | 123 (53.47%) | 0 | 0.008 |
| Mortality [#] | 38 (30.89%) | 0 | 0.029 |

*Based on independent *t*-test and the significance level is less than 0.05

[#]This mortality rate was from 123 patients admitted to ICU
