Correction to: Journal of Archaeological Method and Theory (2020) <https://doi.org/10.1007/s10816-020-09448-9>

The Online First version of this article unfortunately contained an error in the dimensions of LiBo fused bead shards described in the section “Lithium Borate Fusion Methods”. On p. 13 of the manuscript PDF, in the sentence “Shards were generally selected based on size and shape: shards 0.5 to 1 mm in maximum dimension and exhibiting a flat surface were chosen.” - the correct dimensions should be **1.0 to 5.0 mm**.

The original article has been corrected.
