### Correction to: Journal for General Philosophy of Science (2021) 52:493–499 <https://doi.org/10.1007/s10838-021-09560-8>

In the original publication, the paragraph starting with “*The Scientific Imagination*, edited by Arnon Levy and Peter Godfrey-Smith” ... has been published incorrectly. The correct version should read as follows:

*The Scientific Imagination*, edited by Arnon Levy and Peter Godfrey-Smith, seeks “to provide a comprehensive and exciting picture of the scientific imagination” (book jacket), and “to showcase current thinking about [“the role and character of imagining within science”] and try to organize it into a coherent research agenda” (p. 1). There are thirteen chapters and an introduction. Ten are written by philosophers, and three by cognitive scientists.

**Publisher’s Note** Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.
