RETRACTION NOTE

Retraction Note to: Potential of soft computing approach for evaluating the factors affecting the capacity of steel–concrete composite beam

Ali Toghroli[1] · Meldi Suhatril[1] · Zainah Ibrahim[1] · Maryam Safa[1] · Mahdi Shariati[1] · Shahaboddin Shamshirband[2]

Published online: 14 January 2020

Retraction To: J Intell Manuf (2018) 29:1793–1801 https://doi.org/10.1007/s10845-016-1217-y

The Editor-in-Chief has retracted this article (Toghroli et al. 2018) because validity of the content of this article cannot be verified. This article showed evidence of substantial text overlap (most notably with the articles cited Cojbasic et al. 2016; Mazinani et al. 2016; Mohammadian et al. 2016; Mansourvar et al. 2015) and authorship manipulation. Meldi Suhatril, Zainah Ibrahim, Maryam Safa, Mahdi Shariati and Shahaboddin Shamshirband do not agree to this retraction. Ali Toghroli has not responded to any correspondence about this retraction.
