DOI 10.1007/s10854-008-9662-9**

There is an error in the calculation of the average luminescence lifetime, $\langle\tau\rangle$, using the experimentally determined values $\tau = 237 \mu\text{s}$ and $\beta = 0.7$ in the equation for $\langle\tau\rangle$ presented on page S432. The correct value is $\langle\tau\rangle = 0.30 \text{ ms}$. We are grateful to Professor J.-C. Bünzli for informing us of our error.

Figure 3 inadvertently showed the photoluminescence emission spectrum of $[(\text{C}_6\text{F}_5)_2\text{PO}_2]_3\text{Er}$ (**5**). The correct version of Fig. 3, showing the spectrum of $[(\text{C}_6\text{H}_5)_2\text{PO}_2]_3\text{Er}$ (**6**), is given below.

Fig. 3 Photoluminescence emission spectrum for $[(\text{C}_6\text{H}_5)_2\text{PO}_2]_3\text{Er}$ (**6**)
