The Editor-in-Chief is issuing an editorial expression of concern regarding the article [1]. While the article presents novel information regarding the study of vanadium-doped titanium dioxide nanoparticles, the Editor-in-Chief is concerned regarding the amount of overlap with [2, 3]. None of the authors have responded to any correspondence from the editor or publisher about this overlap or the Editorial Expression of Concern.

Publisher's Note Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.
