Correction to: Journal of Materials Science: Materials in Electronics <https://doi.org/10.1007/s10854-021-05982-8>

In the original version of this article, unfortunately, the mechanism of degradation of RhB in presence of KBNNO/Bi₂O₃, before the last para under section “3.7 Mechanism for photocatalytic activity” were missed to include. This has been corrected by publishing this correction article.

The original version has been corrected.

The original article can be found online at <https://doi.org/10.1007/s10854-021-05982-8>.
