**Correction to: Journal of Materials Science: Materials in Medicine (2018) 29: 116**

<https://doi.org/10.1007/s10856-018-6128-3>

The original version of this article unfortunately contained a mistake. In the Abstract section the sentence “Furthermore, the drug release mechanism was investigated by kinetic models and a first-order relationship was concluded, which

indicated that the drug release is a simple diffusion process cohydroxyapatite/methotrexate complex controlled by gradient drug concentration.” was wrong. It should read as “Furthermore, the drug release mechanism was investigated by kinetic models and a first-order relationship was concluded, which indicated that the drug release is a simple diffusion process controlled by gradient drug concentration.”
