We would like to note the following corrections to the original version of Zhang, Sun, Lin and Ren:

In Table 2, ".21*" should be ".21***". In the footnote of Table 2, "C 1=married, 2=unmarried" should be "C 0=unmarried, 1=married". In addition, in the first paragraph under the "robustness check" section, "...marital status (1 = married, 2 = not married)..." should be "...marital status (0 = unmarried, 1 = married)..."

Additionally, in Fig. 2, ".08**" should be ".08*".

The authors regret the errors.
