Correction to: Journal of Clinical Immunology

<https://doi.org/10.1007/s10875-020-00828-0>

We request that the following corrections be made in our article:

The Fig. 1-d footnote: Family tree showing the affected member (with filled quadrant), the carriers (black circle inside), and the death members (with a transversal line) must be changed for:

Family tree showing the proband (indicated in black and with an arrow), the death members (with a diagonal black line) and “?” (individuals whose genetic status could not be determined). Each generation is designed by a Roman numeral (I–II) and each individual by an Arabic numeral.
