In the original version of this article, unfortunately, a few corrections in references, provided during proof corrections for restoration of the correct format in the submitted manuscript, were not updated in the final version. The corrections are as under:

7. Since the “W7-X team” is not a title name but a team name, the period after “W7-X team” should be replaced by a comma for consistency with other references.
9. “J.” is missing before “Masur”. Also, the period after “the TCV team” should be replaced by a comma for consistency with other references.

10, 22, 24. “LHD Experiment Group”, “JET EFDA Contributors”, and “NSTX-U Team” are group names, and the “.” should not be there between these device/experiment initials.

The correct version of references are provided below.
