Correction to: Journal of Religion and Health

<https://doi.org/10.1007/s10943-019-00876-w>

The original publication of this article (Grim and Grim 2019) contained the old name for a Department of Health and Human Services' Center above the section "Faith's Relationship with Substance Abuse in General".

The corrected name has been given as follows:

"As a clear indication of the US government's ongoing recognition of the important role of faith-based communities in addressing substance abuse, the Department of Health and Human Services' Center for Faith and Opportunity Initiatives recently published an *Opioid Epidemic Practical Toolkit: Helping Faith-Based and Community Leaders Bring Hope and Healing to Our Communities* (US Department of Health and Human Services 2018a, August 3)."

In Fig. 4, there is a typo in the second line of the caption. The corrected text is given as follows: "Drug death data: National Institute on Drug Abuse (2018); 2017 data provisional."

The original article can be found online at <https://doi.org/10.1007/s10943-019-00876-w>.
