### Correction to: Journal of Religion and Health <https://doi.org/10.1007/s10943-019-00914-7>

The original publication of the article contains an error in the co-author name and textual error in Results section.

The family name of the co-author Saurab Sharma should be Sharma instead of Sharmam. The original article has been corrected.

In Results section, last para should read as given below:

The aims we initially proposed in the PROSPERO protocol for this systematic review included examining whether religion is associated with measures of pain and function and the extent to which pain-related beliefs, pain-coping responses and catastrophizing in adults with chronic pain are different or similar in people with different religious affiliation. However, the studies examining such comparisons were

---

Alexandra Ferreira-Valente and Saurab Sharma have contributed equally to this study.
