In the original publication of the article, the author noticed the errors in the texts, table and references. The corrections have been updated with this erratum.

In Methodology section under first paragraph, the reference citation should have been “Centers for Medicare and Medicaid Services, n.d.” instead of “Academies & of Sciences, Engineering, & Medicine, 2022”.

The original article can be found online at <https://doi.org/10.1007/s10943-023-01925-1>.

In the same section under third paragraph, the following sentence has been incorrectly given as “There are four reversely stated items (items # 4, 5, 13, 16) in the scale” but should have been “There are four reversely scored items (items # 4, 5, 13, 16) in the scale”.

In section “Spirituality and Spiritual Care Rating Scale Testing” under fifth paragraph, the following sentence should have ended with “period” instead of “comma”. The correct sentence should appear as:

Overall, these findings are slightly surprising, because of the interests in person-centred/client-centred, personalized care in the North American residential and nursing home setting (Ebrahimi et al., 2021).

In references, the name of the author should be “McSherry, W.” instead of “Mcsherry, W.”. The corrected references are given below:
