The original version of the article was inadvertently published with errors in the text and Table 2. The corrected text and the table are given below:

In section “School Security”, third para, page 1225, the sentence should read, “As a result, the final construct is constructed of: (a) controlled access to the school grounds, (b) use of a closed campus for lunch, (c) presence of drug

sniffing dogs, (d) strict dress code, (e) required ID badges for students, (f), required ID badges for faculty/staff, (g) security cameras to monitor students, (h) panic buttons in classrooms, and (k) presence of security guards. Descriptive statistics for this measure—designed to have a mean of 0 and a standard deviation of 1—are presented in Table 2.

Note that these changes do not affect the regression models.
