## Correction to: J Philos Logic

<https://doi.org/10.1007/s10992-015-9370-x>

The Jaśkowski-Fitch rules  $|E$  given on p. 193 are incorrect. They correspond to the Genzen rule  $|E$  on p. 187, and should read instead:

$$\begin{array}{c|c} A | B & \\ \hline A & \\ B & \\ \hline \triangleright \perp & |E \end{array} \qquad \begin{array}{c|c} A | B & \\ \hline A & \\ B & \\ \hline \triangleright C & |E \end{array}$$

The Suppes-Lemmon  $|$ -Elimination rule on p. 194 should read:

Given a proof of  $A | B$ , together with a proof of  $A$  and a proof of  $B$ , we may derive  $\perp$  as conclusion. The conclusion  $\perp$  depends on any assumptions on which  $A | B$ ,  $A$ , or  $B$  depends.
