**Correction to: Mitig Adapt Strateg Glob Change (2017) 22:777–803**  
<https://doi.org/10.1007/s11027-015-9698-0>

The original article unfortunately contained an error.

- Section 3.4.2: Reference “Nicholas and Durham 2012” should have been cited in the last sentence. That is “Using a list of viticultural practices defined beforehand, winegrowers had to organize them in an ascending order, from urgent to low adaptation priority, according to a temporal scale, ranging from short to long term over the twenty-first century (Nicholas and Durham 2012)”. This reference is already cited in our published paper.
- Section 4.3.3: First sentence, a small formulation change is needed. That is, the text reading “Winegrowers use physical, or as equally shown by Nicolas and Durham (2012), biological or chemical adaptive responses to manage fungal pathogen risks or outbreaks”. Our formulation error may give the impression that like our study, Nicolas and Durham (2012) also presented findings on physical responses, which were not the case in their study.
- Figure 5b (the second figure on left): The following methodological reference “Adapted from Nicholas and Durham, 2012” should have been cited. Therefore, reading, “Fig. 5 Based on
