Correction to: Motivation and Emotion

<https://doi.org/10.1007/s11031-018-9705-3>

The original version of this article unfortunately contained a mistake in the last paragraph of result section in Study 1. It should read as “Future focus was positively associated with reappraisal, $r = .21$, $p = .005$, and situation modification, $r = .261$, $p < .001$, and negatively associated with acting out, $r = .18$, $p = .02$, and learned helplessness, $r = .21$, $p = .004$ ”.

The original article can be found online at <https://doi.org/10.1007/s11031-018-9705-3>.
