(1) The first sentence of the subsection Secondary malignancies (in Results) should read as follows:

Three patients were diagnosed with a secondary malignancy during follow-up (Table 2).

(2) In Table 1, the following corrections were required:

- (a) the percentage of patients with seizures specified in the last column should be 21.9 (for n = 28).
- (b) the total number of patients specified in the last column for Neuroendocrine sequelae should be qualified to include two patients with transient endocrine alterations.

(c) the percentage of LGG patients with Grade 0 hearing deficits should be 84.8 (for n = 39).
