Erratum to: Neurochem Res (2013) 38:1034–1044
DOI 10.1007/s11064-013-1013-4

The following errors were inadvertently overlooked in the original publication and it has been corrected with this erratum.

1. In Abstract Section, “Further study indicated that hesperidin can increase the level of VDAC1 phosphorylation through enhancing the activity of the glycogen synthase kinase-3 β and decrease the level of hexokinase I in mitochondrial, resulting in mitochondrial release of cytochrome c.” should be replaced with “Further

study indicated that hesperidin can decrease the level of VDAC1 phosphorylation through inhibiting the activity of the glycogen synthase kinase-3 β and increase the level of hexokinase I in mitochondria, preventing release of cytochrome c from mitochondria.”

2. In Result Section (p. 1039), “Hesperidin enhances VDAC1 phosphorylation and promotes the release of HXKI from mitochondria in A β 25–35-treated PC12 cells” should be replaced with “Hesperidin inhibits VDAC1 phosphorylation and prevents the release of HXKI from mitochondria in A β 25–35-treated PC12 cells.”
