Correction to: Natural Hazards

<https://doi.org/10.1007/s11069-021-04640-w>

This correction stands to correct two discrepancies found in the original article. Readers should note the following:

1. In the Introduction the reference, Salazar et al. (2018) should be noted as Salazar et al. (2013). *Since the first seismic hazard maps published by Algermissen et al. (1988) through Salazar et al. (2013).*
2. In section, 3.1 Cumulative probabilities, Eq. 8 should be noted as:
Matching the left part of Eqs. 2 and 4 gives:

$$1 - e^{-\lambda t} = 1 - e^{-\alpha t^\beta} \quad (8)$$

We noticed that the α coefficient for M 6.25–6.5 and M 6.5–7 in the Weibull model yields almost zero (see Table 2).
