Abstract The Editor-in-Chief is issuing an Editorial Expression of Concern for this Article.

Expression of Concern to:

Nonlinear Dyn (2015) 81:1219–1245

<https://doi.org/10.1007/s11071-015-2064-7>

The Editor-in-Chief is issuing an Editorial Expression of Concern for this Article. It has been brought to the journal's attention that there is significant overlap with a number of articles which were under consideration at the same time, but were published after this article [1–9] (amongst others).

Author C.H. Lin has not provided a clear response regarding this Editorial Expression of Concern.
