Correction to: Numer. Algorithms 61:649–657 (2012)
<https://doi.org/10.1007/s11075-012-9556-z>

The first equation in Eq. (2.9) should read

$$\alpha_k = \frac{1}{2} [(1+c)a_k - 1 + c], \quad k \geq 0.$$

The error was detected while programming the procedure described in Section 3 of the paper and comparing the results for $c = 0$ with earlier results obtained more directly (and correctly) by the cited Matlab function `r_subjacobi0.m`.
