Correction to: Pharm Res

<https://doi.org/10.1007/s11095-019-2630-7>

The Publisher regrets having introduced the following errors into the article when performing proof corrections:

1. the equation immediately above equation 19: has a red “p” instead of the greek letter “pi”, and the mdot_i has two dots instead of one and the “i” is under the character instead of being its subscript
2. the equation immediately after equation 19: has the same problems with the letter “pi” and mdot_i
3. equation 21: has the same problem with mdot_i and also the right square bracket is smaller than the left one

The original article has been corrected.

Publisher's Note Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.
