Correction to: Plant Mol Biol Rep

<https://doi.org/10.1007/s11105-018-1103-1>

The original version of this article unfortunately contained mistake in Fig. 3 caption. The authors changed the figure color to improve quality during the publication process but missed to change the the legend at Figure caption. That is in the phrase “green boxes represent the variant” should be replaced with “blue boxes represent the variant”.

The authors hereby publish the correct caption of Fig. 3.

Fig. 3 Distribution of annotated NBS-LRR genes in Huaye 3 and Huaye 4. The red dots represent the variant NBS-LRR genes in Huaye 3, and the blue boxes represent the variant NBS-LRR genes in Huaye 4. The serial number of homologs in Huaye 3 and Huaye 4 was named as “Or-Chr-NB-18/35-No.” “Or” represents *Oryza rufipogon*, “Chr” represents chromosome, “NB” represents NB-ARC, “18” represents Huaye 3, “35” represents Huaye 4, and “No.” represents serial number
