In this article the caption of Table 2 was incorrectly given as “Multivariate Lagrange multiplier test of equal factors loadings across groups = 17.19, 18 degrees of freedom ($p=0.51$).” It should have read “Multivariate Lagrange multiplier test of equal factors loadings across groups = 21.93, 18 degrees of freedom ($p=0.24$).”

The second error is in Table 3. The caption was incorrectly given as “Multivariate Lagrange multiplier test of equal factors loadings across groups = 26.84, 18 degrees of freedom ($p=0.08$).” It should have been “Multivariate Lagrange multiplier test of equal factors loadings across groups = 28.50, 18 degrees of freedom ($p=0.06$).”
