Dr. Jim Schepers has been my very able co-editor for several years. Last July, Jim stepped down to pursue other interests. I wish to record a very big thank you to him for his enthusiastic, accurate and detailed editing work. In his place, I welcome Dr. Paul Carter of Washington State University. Paul has already contributed significantly to PRAG as a referee over a number of years.

Volume 15 Issue 1 contains 3 enhanced papers from the 4th Asian Conference on Precision Agriculture and one from the 2nd conference on Robotics and associated high Technologies and equipment for agriculture and forestry.
