### Erratum to: Public Choice DOI 10.1007/s11127-016-0377-9

Due to an unfortunate combination of error and oversight on the part of Braithwaite, Tables 2, 3 and 4 in the original published version contain a considerable number of erroneous attributions of statistical significance to coefficient estimates. This error occurred at some stage between acceptance of the manuscript and final publication. Please find in this erratum the correct version of the tables that should be regarded as the final version by the reader. Please also note that all of the coefficient values and standard errors are reported correctly in the original version.

---

The online version of the original article can be found under doi:[10.1007/s11127-016-0377-9](https://doi.org/10.1007/s11127-016-0377-9).
