The variance for A_{RE}^s reported in footnote 8 on page 45 of Bryant, Kang, Zick and Chan (2004) is in error. The correct formula is:

$$\text{Var}(A_{RE}^s) = \sum_j \bar{Z}_{sj}^2 \sigma_{rj}^2 + \sum_j \bar{Z}_{sj}^2 \sigma_{dj}^2 + 2 \sum_{j \neq p} \bar{Z}_{sj} \bar{Z}_{sp} \sigma_{sjp} + 2 \sum_{j \neq p} \bar{Z}_{sj} \bar{Z}_{sp} \sigma_{djp}$$

We are indebted to a discussion with Jorge Gonzalez-Chapela for discovering this error. The conclusions of the paper are not affected.
