

Erratum

An error occurred during type setting of Table 9 in the article “An overview of recent global experience with recovery plans for depleted marine resources and suggested guidelines for recovery planning” by J. F. Caddy and D. J. Agnew. *RFBF* 14:43–112. Table 9, page 71, should have appeared as below. We sincerely apologize to the authors for this error.

Table 9. A scoring of six recovery plan themes and checklist of questions to consider when preparing a recovery plan

Recovery plan theme ¹	A	B	C	D	E	F
Environmental changes important for rebuilding/declines?	Y	Y	Y			Y
Was an effort made to protect/improve critical habitats?			Y			
Did changes in assessment methodologies during plan lead to parameter changes/cause problems in interpreting stock condition?	Y			Y		
Was SSB proposed as the control indicator?						
Was recruitment irregular before or during the plan?	Y		Y		Y	
Were there major (potential) sources of bias in the assessments?				Y	Y	
Was a recovered age structure considered in the plan?		Y		Y		
Were gear restrictions/size limits changed before/in the plan?		Y	Y			
Were multispecies (M) technical interactions (T) considered?	Y	N?	N?	?	Y	
Were bycatch considerations taken into account?	Y	?	?	?	Y	Y
Was a robust stock rebuilding rule followed?	N	Y				
Were there overriding legislation specifying criteria for initiating a non-discretionary recovery plan?	?	Y	Y	Y	Y	Y
Were spatial closures specified?						Y
Were problems with implementation error considered?	?	Y				
Were hatcheries used to augment recruitment?			Y			
Were there conflicts between stakeholder groups?				Y		
Were fishers consulted? Did they accept the plan? (Sp = sports fishery)			Sp Y			
Was plan duration specified?						
Was an attempt made to reduce capacity before/during plan?						
Is effort likely to be diverted to other fisheries during the plan?	Y		Y	Y	Y	Y
Was a fishing mortality (vector) specified?						
Was there a formal end point to the rebuilding plan?			Y			
Was there litigation before or during (D) the plan/ Was there an external review (E)?				D,E		
Was the management regime changed after recovery?			Y	Y		
Did problems increase during the implementation of the plan?				Y		Y
Was the management infrastructure suitable for timely action?	Y					Y
Has the rebuilding effort been successful (P = partly)?	Y	Y	Y	P	N	N

Themes in recovery case studies: A = Pacific halibut; B = Spanish mackerel; C = Striped bass; D = Summer flounder; E = Pacific Ocean perch; F = Canadian cod in NAFO 4X5Y.
