

XXIV International Scientific and Practical Conference of students and young scientists "Chemistry and Chemical Engineering in the 21st Century"

The XXIV International Scientific and Practical Conference of students and young scientists "Chemistry and Chemical Engineering in the 21st Century" named after outstanding chemists L. P. Kulev and N. M. Kizhner, devoted to the 85th birthday anniversary of Professor A. V. Kravtsov (CCE-2023), will be held on May 15–19, 2023, in the Tomsk Polytechnic University (Tomsk).

Organizer: Tomsk State University

Scientific Program

The scientific program of the Conference will include the following sections:

- Chemistry and chemical engineering of inorganic compounds and materials.
- Chemistry and chemical engineering of organic compounds and materials.
- Theoretical and applied aspects of physical and analytical chemistry;
 subsection: theoretical and applied aspects of pharmacy and biotechnology.
- Engineering and simulation of preparation and processing of hydrocarbon feedstock.
- Chemical engineering of rare, trace, and radioactive elements.
- Environment protection and rational use of natural resources.
- Chemistry and chemical engineering in a foreign language (English).
- Chemical engineering of polymer materials.
- Chemistry and chemical engineering (for high school students).
- Promising materials and nanotechnologies.

The program of the Conference will include plenary (30 min), key (20 min), and oral (10 min) reports and lectures of leading scientists. For students and post-graduates from other towns, remote and virtual attendance is possible.

The working languages of the Conference are Russian and English.
