

Conference "New Emerging Trends in Chemistry" (NewTrendsChem-2023)

Conference "New Emerging Trends in Chemistry" (NewTrendsChem-2023) dedicated to the 90th anniversary of Chemical Department of Yerevan State University will be held on September 24–28, 2023 (Yerevan, Armenia).

Organizers

National Academy of Sciences of the Republic of Armenia (NAS RA)
Scientific and Technological Center of Organic and Pharmaceutical Chemistry (STCOPhCh, Armenia)
Yerevan State University (YSU, Armenia)
Zelinsky Institute of Organic Chemistry, Russian Academy of Sciences (ZIOC RAS, Russia)

Organizing committee

Chairperson of the Conference R. Hakobyan, STCOPhCh

A. Galstyan (YSU)	A. Mkrtchyan (Institute of Pharmacy, YSU)
A. Harutyunyan (STCOPhCh)	A. Shahkhatuni (STCOPhCh)
L. Hunanyan (Russian-Armenian University)	M. Zakaryan (Institute of Chemical Physics)
L. Nersesyan (STCOPhCh)	

Scientific committee

A. Saghyan, President of National Academy of Sciences of Armenia
S. Kalmykov, Vice President of Russian Academy of Sciences, Lomonosov Moscow State University (Russia)
M. Egorov, Academician of Russian Academy of Sciences, Academician-Secretary of RAS, Director ZIOC RAS (Russia)
L. Tavadyan, Academician, Academician-Secretary of NAS RA
V. Ananikov, Academician of Russian Academy of Sciences, ZIOC RAS (Russia)
G. Danagulyan, Corresponding Member of NAS RA, Professor, Russian-Armenian University (Armenia)
S. Gasparyan, Director of STCOPhCh (Armenia)

Scientific Sections

The scientific program of the Conference includes the following subjects:

- Organic Synthesis and Practical Applications
- Catalysis
- Medical Chemistry
- Heterocyclic Chemistry and Drug Design
- Physical and Chemical Research for New Technologies
- Modern Digital Technologies in Chemistry, Biology, Medicine
- Supramolecular Chemistry
- Material Science
