

X International Symposium "Design and Synthesis of Supramolecular Architectures"

X International Symposium "Design and synthesis of supramolecular architectures" dedicated to 90th anniversary of Academician of the Russian Academy of Sciences A. I. Konovalov will be held in Kazan (Russia) in Conference Hall of the Federal Research Center "Kazan Scientific Center of Russian Academy of Sciences" on April 15–19, 2024.

Organizers

Kazan (Volga Region) Federal University
Federal Research Center "Kazan Scientific Center of Russian Academy of Sciences" (FRC KSC RAS)
Arbuzov Institute of Organic and Physical Chemistry of FRC KSC RAS
D. I. Mendeleev Russian Chemical Society

Organizing Committee

Chairman	Corresponding Member of RAS I. S. Antipin	
Vice-Chairman	Professor V. A. Burilov	
Corresponding Member of RAS A. A. Karasik	A. S. Agarkov	J. E. Morozova
Professor S. E. Solovieva	F. B. Gabdrakhmanova	A. S. Ovsyannikov
Professor A. Y. Ziganshina	N. I. Ivanova	E. D. Sultanova

Scientific Program

The scientific program of the Conference includes the following subjects:

- Molecular recognition and «host-guest» chemistry;
- Self-assembly and self-organization;
- Biomimetic functional supramolecular systems;
- Inorganic supramolecular chemistry;
- Molecular machines and devices;
- Crystal engineering;
- Development of supramolecular and nanomaterials;
- Supramolecular systems in biology and medicine.

The conference program will include plenary presentations (40 min), keynote presentations (30 min), oral presentations (15 minutes) and flash presentations by young scientists (5 min). There are no poster sessions planned.

Official languages of the symposium — Russian and English.

Contacts: ul. Lobachevskogo, 2/31, 420111 Kazan, Tatarstan, Russian Federation.

Secretary professor D. A. Mironova.

E-mail: Suprachem2024@yandex.ru; phone: +7 (843) 233 7344.
