In Section 3.3, paragraph 11 the sentence “Examination of observations described by Heweliusz show only few observations of the Sun during some years, as in 1662 (without catalogued Sun observations), 1663 (six days remarked as solar), 1664 (two solar observations), 1665 (one solar observation), 1666 (six observations) and others (Heweliusz, 1679).” should be replaced by: “Heweliusz in his catalogue of measurements of the Sun’s altitude made with using a quadrant, described only six observations of the solar surface in the period 1662–1670, all of them in 1663 (Heweliusz, 1679).”

The author regrets these mistakes.
