In paper

H. Song, W. X. Hao, X. W. Mu, F. Q. Zhao, X. Xi Hao, and G. H. Geng, “Effect of pulse current on the wear behavior of a cold-rolled commercially pure aluminum sheet,” *Strength Mater.*, 53, No. 1, 23–33 (2021), <https://doi.org/10.1007/s11223-021-00257-3>

the following two errors were made:

1. The fifth author should read X. Hao.
2. In section 2.4 on page 31, the respective phrase should read “It can be seen from the diagram that with an increase in deformation rate, the diameter of wear debris first dropped and then grew.”

We apologize to the authors and readers for these technical lapses.
