Correction to: Lambek Calculus with Conjugates

Correction to: *Studia Logica*

<https://doi.org/10.1007/s11225-020-09913-2>

We, the authors, would like to thank Guillaume Aucher for informing us of his “Displaying Updates in Logic”, published in the *Journal of Logic and Computation*, 26(6):1865–1912 (2016), where systems of substructural logics with indexed collections of residuated operators are studied in some generality, and completeness results are given for these logics using display calculus methods. This provides an answer to the open problems posed in our paper, though we’d like to note that this leaves a further question of finding additional complete proof systems, including those along the lines of the FMLA-FMLA systems we consider.

Publisher’s Note Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.
