Correction to: Synthese

<https://doi.org/10.1007/s11229-018-01925-9>

- The sentence

“The success of the older theories will not entail any *genuine* success of a new one, in the sense specified above, and one could hence reasonably maintain that older successes have no say in the estimation of the new theory’s success.”

in the final paragraph of section 2.1 needs to be

“The success of the older theories will not be entailed by any *genuine* successes of a new one, in the sense specified above, and one could hence reasonably maintain that older successes have no say in the estimation of the new theory’s success.”

Otherwise it fails to make contact with the previous paragraphs and the subsequent discussion.

- “random mean squared” in the paragraph following equation 16 needs to be “root mean square”
