Correction to: Synthese

<https://doi.org/10.1007/s11229-019-02295-6>

(PWCP) and (ACP) in Sect. 5 should be reformulated as follows:

(PWCP) $\exists x \exists y (\phi x \wedge \phi y \wedge x \neq y) \rightarrow \exists Y \exists z (z S F u \phi \wedge \forall x (x < Y \leftrightarrow x < z))$

(ACP) $\exists x \exists y (\phi x \wedge \phi y \wedge x \neq y) \rightarrow \exists Y \exists z (z S F u \phi \wedge \forall x (x < Y \leftrightarrow (x < z \wedge A x)))$

As an effect of this, throughout the paper, the theories labelled ‘CAI+(PWCP)’ and ‘ACAI’ should be understood as assuming the following ‘No Improper Plurality’ principle:

(NIP) $\forall X \exists y \exists z (y < X \wedge z < X \wedge y \neq z)$
