Retraction to: Tribology Letters (2019) 67:18 <https://doi.org/10.1007/s11249-018-1128-5>

The Editor-in-Chief has retracted this article. Following publication concerns were raised regarding Fig. 8. Specifically, the figure appears to contain multiple repeated features. The Editor-in-Chief therefore no longer has confidence in the reliability of the data reported in the article. The authors

have been offered the chance to submit a revised manuscript for further peer review.

All authors agree to this retraction.

Publisher's Note Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.
