Correction to: Tropical Animal Health and Production
<https://doi.org/10.1007/s11250-019-02078-8>

In the originally published article, the sentence “It was prepared from carefully selected soybean meal and was processed by enzymatic hydrolysis into small peptide.” in the section Materials and methods was incorrect.

The correct sentence should read as “It was prepared from carefully selected cottonseed protein and was processed by enzymatic hydrolysis into small peptide.”

The online version of the original article can be found at <https://doi.org/10.1007/s11250-019-02078-8>
