Publisher Correction: Urban Ecosystems

<https://doi.org/10.1007/s11252-020-00946-y>

The Publisher would like to correct the introduced formatting errors on the caption of Figure 1 and in the data in Table 2. The Publisher apologizes for the oversight and for any confusion it may have caused.

In the original article, Figure 1 caption was captured as: Fig. 1 Boxplots with means (diamonds) of estimated caracal prey consumed biomass (kg, log transformed) using scat analysis, GPS cluster analysis, GPS-located prey remains integrated with minimum transit (0.5-day) and maximum transit time (4-day) scat samples for prey belonging to three prey categories (wild, synanthropic and exotic) from caracal ($n = 22$) on the Cape Peninsula, South Africa.

The correct caption of Figure 1 should read: Fig. 1 Map of the Cape Peninsula study area in South Africa showing the locations of caracal prey remains ($n = 385$) and scats ($n = 654$).

Additionally, a Chinese character was added (寫) in **Table 2** under “Scratching posts” for “Juvenile males”.

The original article has been corrected.

The online version of the original article can be found at <https://doi.org/10.1007/s11252-020-00946-y>
