

Acknowledgment to reviewers

© Springer Science+Business Media B.V. 2009

We would like to take this opportunity to acknowledge the time and effort devoted by reviewers to improving the quality of published work in UMUI. Authors often write to express their appreciation for the detailed and useful comments that we obtain for them. Only rarely we receive complaints, even when the reviews are negative. This is a tribute to the spirit in which reviewing is undertaken for this journal. It is a pleasure therefore, to be able to pass on thanks from the Editorial Board to the following researchers who also reviewed papers for this year:

Loro Aroyo, Fabian Bohnert, Carlo Busso, Cristina Conati, Mihaela Cocea, Michel Desmarais, Vania Dimitrova, Hans Dybkjær, Dominikus Heckmann, Vera Hollink, Víctor M.
