In the original publication of this article (10.1007/s11270-013-1513-5), Figure 1 unfortunately contained an error. The units for hydrogen peroxide should have been “ $\mu\text{g g}^{-1}$ DW”. The correct figure is reproduced here.

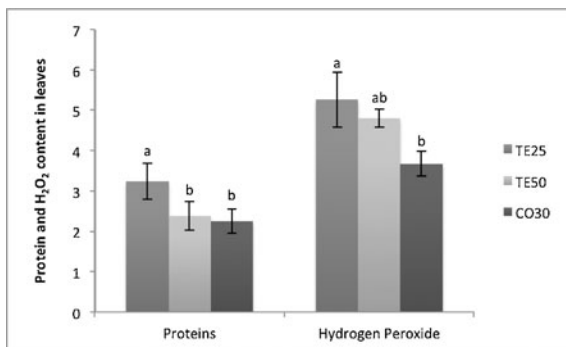

Fig. 1 Protein (mg g^{-1} DW) and hydrogen peroxide ($\mu\text{g g}^{-1}$ DW) content in *S. verbenaca* plants grown in the different soil treatments. TE25 25 % of technosol, TE50 50 % of technosol, CO30 30 % of compost. Values followed by different letters in each treatment differ significantly at $p \leq 0.05$
